

CONTENTS

VOLUME 1

1. Blood Vessels and Lymphatics	1
1.1 Vascular Structure and Function, Vascular Anomalies, Vascular Wall Response to Injury, and Hypertensive Vascular Disease	1
1.2 Arteriosclerosis and Atherosclerosis	23
1.3 Aneurysms, Dissection, Vasculitis, Veins, and Lymphatics	44
1.4 Vascular Malformations, Reactive Vascular Proliferations, and Vascular Tumors	69
1.5 Lymphatic Tumors, Perivascular Tumors, and Pathology of Vascular Intervention	89
2. The Heart	96
2.1 Cardiac Structure	96
2.2 Heart Failure	106
2.3 Embryologic Development of Heart and Congenital Heart Disease	116
2.4 Ischemic Heart Disease, Hypertensive Heart Disease, Arrhythmias, and Sudden Cardiac Death	138
2.5 Valvular Heart Disease	170
2.6 Cardiomyopathy, Myocarditis, and Other Myocardial Diseases	193
2.7 Pericardial Disease, Tumors of the Heart, Cardiac Transplantation, Cardiac Devices, and Myocardial Biopsy	211
3. Lung, Pleura, and Mediastinum	225
3.1 Normal Respiratory System, Congenital Anomalies, Cystic Diseases, Atelectasis, Pulmonary Edema, Acute Lung Injury, and Acute Respiratory Distress Syndrome	225
3.2 Obstructive Lung Diseases	242
3.3 Chronic Diffuse Interstitial (Restrictive) Diseases	265
3.4 Diseases of Vascular Origin	292
3.5 Pulmonary Infections and Lung Transplantation	300
3.6 Tumors of Lung	329
3.7 Pleura	355
3.8 Mediastinum	362

4. Head and Neck	373
4.1 Oral Cavity and Oropharynx	373
4.2 Nose, Paranasal Sinuses, and Nasopharynx	394
4.3 Larynx	407
4.4 Ears	415
4.5 Neck	421
4.6 Salivary Glands	424
5. Gastrointestinal Tract	447
5.1 Normal Anatomy and Diseases of Esophagus	447
5.2 Stomach	462
5.3 Small Intestine and Large Intestine	497
5.4 Appendix	558
5.5 Anus and Miscellaneous	562
5.6 Neuroendocrine Neoplasms in Non-endocrine Organs	577
5.7 Peritoneal Cavity	592
6. Liver	597
6.1 Normal Anatomy, General Features of Liver Disease, Liver Failure and Portal Hypertension	597
6.2 Infectious Disorders	615
6.3 Autoimmune Hepatitis and Drug- and Toxin-induced Liver Injury	635
6.4 Fatty Liver Disease	642
6.5 Cirrhosis	657
6.6 Inherited Disease of Liver	659
6.7 Cholestatic Disease	671
6.8 Miscellaneous Non-neoplastic Liver Disease	687
6.9 Tumors and Tumor-like Conditions	695
6.10 Gallbladder	713
7. Pancreas	729
7.1 Normal Anatomy, Congenital Anomalies, and Pancreatitis	729
7.2 Non-neoplastic Cysts and Exocrine Neoplasms of Pancreas	746
7.3 Neuroendocrine Neoplasms of Pancreas	766
8. Kidneys	775
8.1 Anatomy and Clinical Manifestations of Renal Disease	775
8.2 Introduction to Glomerular Diseases and Renal Biopsy	784
8.3 Nephritic Syndrome	799
8.4 Nephrotic Syndrome	806

- 8.5 Tubular and Interstitial Diseases 833
- 8.6 Vascular Diseases of Kidney and Chronic Kidney Injury 858
- 8.7 Congenital Anomalies and Cystic Diseases of Kidney 873
- 8.8 Urinary Tract Obstruction (Obstructive Uropathy) and Renal Transplant Pathology 882
- 8.9 Tumors and Tumor-like Conditions of Kidney 899

9. Lower Urinary Tract 927

- 9.1 Normal Anatomy, Ureters, and Non-neoplastic Lesions of Urinary Bladder 927
- 9.2 Urinary Bladder Tumors and Lesions of Urethra 940

10. Male Genital System 960

- 10.1 Penis and Scrotum 960
- 10.2 Non-neoplastic Diseases of the Testis 974
- 10.3 Testicular Tumors 989
- 10.4 Lesions of Testicular Adnexa 1015
- 10.5 Prostate 1021

VOLUME 2

11. Female Genital Tract 1052

- 11.1 Embryology, Infections, Vulva, and Vagina 1052
- 11.2 Cervix 1068
- 11.3 Body of Uterus and Endometrium 1094
- 11.4 Mesenchymal Tumors of the Uterus and Lower Genital Tract 1128
- 11.5 Fallopian Tubes 1138
- 11.6 Ovaries, Cysts, Classification of Tumors and Epithelial Tumors 1147
- 11.7 Sex Cord-Stromal Tumors 1176
- 11.8 Germ Cell Tumors 1187
- 11.9 Diseases of Placenta 1203

12. Breast 1228

- 12.1 Normal Anatomy and Benign Epithelial Lesions of Breast 1228
- 12.2 Carcinoma of the Breast 1241
- 12.3 Fibroepithelial, Epithelial–Myoepithelial Tumors, and Breast Diseases in Children and Adolescents 1279
- 12.4 Mesenchymal and Hematolymphoid Tumors of the Breast 1287
- 12.5 The Male Breast 1292

13. The Endocrine System	1295
13.1 Pituitary Gland	1295
13.2 Non-neoplastic Lesions of Thyroid Gland	1314
13.3 Tumors of the Thyroid	1335
13.4 Parathyroid Glands	1365
13.5 The Endocrine Pancreas	1378
13.6 Adrenal Glands: Adrenal Cortex	1402
13.7 Adrenal Medulla and Paraganglia	1425
13.8 Genetic Tumor Syndromes Associated with Endocrine Lesions and Tumors Paraneoplastic Syndromes	1433
14. The Skin	1440
14.1 Normal Anatomy	1440
14.2 Disorders of Pigmentation and Melanocytes	1457
14.3 Blistering (Bullous) Diseases	1481
14.4 Benign Tumors Cysts of Epidermis, and Congenital Diseases	1495
14.5 Adnexal (Appendage) Tumors	1504
14.6 Premalignant and Malignant Epidermal Tumors	1521
14.7 Granulomatous Inflammation	1533
14.8 Soft Tissue Tumors and Tumors of Hematopoietic and Lymphoid Origin	1541
14.9 Inflammatory Dermatoses	1551
14.10 Disorders of Epidermal Appendages, Panniculitis, and Infection	1562
15. Bone and Joints	1573
15.1 Bone	1573
15.2 Developmental Disorders of Bone and Cartilage and Metabolic Diseases of Bone	1584
15.3 Fractures, Avascular Necrosis, and Osteomyelitis	1600
15.4 Bone Tumors	1609
15.5 Joints	1642
16. Soft Tissue	1669
16.1 Normal Anatomy and Introduction to Soft Tissue Tumors	1669
16.2 Tumors of Adipose Tissue	1688
16.3 Fibroblastic and Myofibroblastic Tumors	1700
16.4 Tumors of Smooth Muscle and Skeletal	1716
16.5 Peripheral Nerve Sheath Tumors	1729
16.6 Tumors of Uncertain Differentiation	1741
16.7 Undifferentiated Small Round Cell Sarcomas of Bone and Soft Tissue	1749

17. Peripheral Nerves and Skeletal Muscles

- 17.1 Peripheral Nervous System 1754
- 17.2 Diseases of the Neuromuscular Junction 1771
- 17.3 Skeletal Muscle 1775
- 17.4 Diseases of Skeletal Muscles 1791

18. Central Nervous System

1820

- 18.1 Normal Anatomy and Cellular Pathology of the Central Nervous System 1820
- 18.2 Raised Intracranial Pressure, Malformations, Developmental Disorders, and Perinatal Brain Injury 1832
- 18.3 Trauma and Cerebrovascular Disease 1842
- 18.4 Central Nervous System Infections 1864
- 18.5 Demyelinating Diseases 1891
- 18.6 Neurodegenerative Diseases 1896
- 18.7 Metabolic, Nutritional, and Toxic Diseases 1921
- 18.8 Tumors of the Central Nervous System 1932

19. The Eye

1991

20. Genetic Tumor Syndromes

2026
