

CONTENTS

1. Famous People in History of Surgery	1	Indications for Crystalloids	44
Application/Skills	2	Indications for Colloids	44
Major Contributions of Famous People	3	Complications of IV Fluids	44
2. Etiology, Investigations and Treatment	4	IV Fluid Overload	44
Application/Skills	5	Hyponatremia and Hypokalemia	45
Etiology (Causes of Disease)	7	Total Parenteral Nutrition (TPN)	45
Investigations	7	7. Blood and Blood Transfusion (BT)	46
Treatment	7	Application/Skills	47
How to Write an Answer for a Question	8	Blood Composition	48
Management	8	Blood Components/Blood Fractions	48, 50
Implied Consent	8	Blood Groups (2 Major Groups are ABO and Rh)	48
Informed Consent	8	Blood Grouping and Crossmatch	50
Postoperative Notes	9	Indications for Blood Component Transfusion	51
Checklist for Discharge Note/Summary	9	Blood Transfusion Complications	51
3. History, Case Work up and Presentation	10	Treatment of Blood Transfusion Reactions	52
Application/Skills	11	Prevention of Blood Transfusion Complications	53
History, Work up of Patient and Clinical Case		Methods to Reduce Blood Transfusion (i.e., Blood Conservation)	53
Presentation	12	Autotransfusion	53
Clinical Case Presentation (Examination of Swelling)	13	Massive Blood Transfusion (MBT)	54
Ulcer	14	Hemophilia	54
Diabetic Foot	14	Artificial Blood/Oxygen Therapeutic Agents (OTAs)/Blood Substitutes	55
Thyroid Swelling	15	8. Sutures	56
4. Operative Surgery (Sterilization, Energy Sources, Biopsy, Laser, Etc.)	16	Application/Skills	57
Application/Skills	17	Characteristics of Suture Material	58
Universal Precautions/Standard Precautions	18	Classification of Sutures	58
Asepsis and Antisepsis	19	Surgical Gut (Catgut)	59
– Sterilization	20	Summary of Classification of Sutures	59
Energy Sources in Surgery	21	Size for Skin Suture	60
– Diathermy (Electrocautery)	21	Suture Removal Day	60
Biopsy	23	Suture Line Care	60
Surgical Drains	26	Uses of Sutures	60
Lasers	26	Complications of Sutures	60
Cryosurgery	27	Alternatives to Sutures	61
Imaging	28	9. Shock	62
– Common Imaging Modalities for Dental/Facial Problems	30	Application/Skills	63
– Uses of Imaging	31	Classification	64
5. Anesthesia (Local/Regional/General)	32	Hypovolemic Shock	64
Application/Skills	33	Post-dental Extraction Bleeding	67
Classification of Anesthesia	34	Methods to Arrest or Control Bleeding (Hemostasis)	67
Local Anesthesia (LA)	35	SIRS, Sepsis, MODS and ARDS	67
Comparison of Local Anaesthetic Drugs Used in Infiltration Anesthesia	35	Multiple Organ Dysfunction Syndrome (MODS) (SIRS-Shock-MODS)	68
Lignocaine	36	Acute Respiratory Distress Syndrome (ARDS) (Wet Lung)	69
Complications of LA	36	Septic Shock	69
Treatment of Local Anesthetic Systemic Toxicity (LAST)	37	Anaphylactic Shock	71
Methods/Precautions to Prevent Local Anaesthesia Complications	37	Vasovagal Shock/Syncope	72
Mandibular Nerve Blocks	37	Hypoadrenal Shock/Adrenal Crisis/Acute Adrenal Insufficiency	73
Maxillary Nerve Blocks	39	Neurogenic Shock	73
6. IV Fluids (Intravenous Fluids)	41	Cardiogenic Shock	74
Application/Skills	42	10. Burns, Skin Grafting and Flaps	75
IV Fluids	43	Application/Skills	76

Types of Burns	77		
Pathophysiology of Burns	77		
Classification or Estimation of Burns	77		
Indications for Transfer to Burns Unit	78		
Investigations	78		
Treatment of Burns	78		
Complications of Burns	80		
Respiratory Burns	80		
Electrical Burns	81		
Management of Wounds with Skin Loss (Reconstructive Ladder)	81		
Skin Graft	81		
Flaps	83		
11. Inflammation	86		
Application/Skills	87		
Acute and Chronic Inflammation	88		
Granuloma	89		
12. Infections (Bacteria, Viruses and Fungal)	90		
Application/Skills	91		
Koch's Postulates (Robert Koch)	92		
Nosocomial Infection	92		
Staphylococcus Infections	92		
Abscess	92		
Cellulitis	93		
Differences Between Abscess and Cellulitis	94		
Carbuncle	94		
Cellulitis with Special Reference to Lip (Dangerous Area of Face)	94		
Necrotizing Soft Tissue Infections (NSTI)	95		
Vincent's Stomatitis/Vincent's Angina/Trench Mouth Acute Necrotising Ulcerative Gingivitis (ANUG)	96		
Cancrum Oris	96		
Ludwig's Angina	96		
Alveolar Abscess	97		
Acute Tonsillitis	97		
Peritonsillar Abscess (Quinsy)	98		
Retropharyngeal Abscess	98		
Parotitis (Mumps) (Endemic/Infectious)	99		
Actinomycosis	99		
Pott's Puffy Tumor	100		
Gangrene	100		
Gas Gangrene	101		
Diabetic Foot	101		
Charcot Arthropathy	103		
Filariasis	103		
Tetanus	104		
Tetanus Prophylaxis	105		
Leprosy	105		
Lepra Reaction	106		
Face Involvement in Leprosy	107		
Syphilis	107		
Congenital Syphilis	109		
Oral Manifestations in Syphilis, Tuberculosis, Leprosy and Herpes	109		
Chancroid (Soft Chancre)	109		
13. Polytrauma	111		
Application/Skills	112		
Triage	113		
Advanced Trauma Life Support (ATLS)	113		
Investigations	115		
Cardiac Arrest	115		
Cardiopulmonary Resuscitation (CPR)	116		
14. Wounds	117		
Application/Skills	118		
Definition	119		
Classification	119		
Surgical Wound Classification	119		
Surgical Site Infection (SSI)	120		
Prophylactic Antibiotics/Antibiotic Prophylaxis	120		
Wound Healing	120		
Normal Healing in Bone/Nerve/Tendon	122		
Management of Traumatic/Contaminated/Lacerated/Dirty/Puncture/Degloving Wound	122		
Management of Wounds with Skin Loss (Reconstructive Ladder)	123		
Wound Care	123		
Complications of Wounds	124		
Skin Tension Lines (Langer's Lines)	124		
Hypertrophic Scar and Keloid	124		
15. Head Injury	126		
Application/Skills	127		
Classification of Head Injury	128		
Components of Head Injuries	128		
Traumatic Brain Injury (TBI)	129		
Management of Head Injury	131		
Complications of Head Injuries	132		
Monro-Kellie Doctrine	132		
Criteria for Brain Death	133		
Management of Unconscious Patient After Road Traffic Accident (RTA)	133		
16. Orthopedics (Fractures, Osteomyelitis, Etc.)	134		
Application/Skills	135		
Fracture	136		
Open/Compound Fracture Treatment	138		
Fracture Healing	138		
Factors Affecting Bone Healing	138		
Non-union or Delayed Union	139		
Malunion	139		
Complications of Fractures	139		
Fracture Ribs	139		
Flail Chest	140		
Crush Syndrome/Bywaters Syndrome	140		
Fat Embolism	141		
Compartment Syndrome	141		
Osteomyelitis	142		
Brodie's Abscess	143		
Osteoporosis	144		
Maxillary Fractures	145		
Mandibular Fractures	146		
17. Cancer and Treatment Options	149		
Application/Skills	150		
Benign Lesion and Cancer Differences	151		
Metastasis	152		
Pleomorphism	152		
Screening Programs which can Help Detect Cancer	152		
Investigations for Cancer	152		
Tumor Markers	153		
Staging of Cancer	153		
Treatment of Cancer	154		
Prevention of Cancer	154		
Radiotherapy	155		
Indications for Radiotherapy	156		
Complications of Radiotherapy	156		
Care of Patients on Radiotherapy	156		

18. Skin Cancer (Squamous Cell, Basal Cell and Malignant Melanoma)	157	Ranula 197
Application/Skills 158		Epulis 197
Squamous Cell Cancer (SCC) (Epithelioma/Epidermoid Ca) 159		Trismus 198
Marjolin's Ulcer 160		Tongue Tie 198
Basal Cell Carcinoma (BCC) (Rodent Ulcer/Tear Cancer) 160		Ulcers in Oral Cavity 199
Malignant Melanoma (MM) 161		Aphthous Ulcers 199
Comparison of Common Skin Cancers 163		Potentially Premalignant Oral Epithelial Lesions (PPOEL) 200
19. Ulcer, Sinus and Fistula	164	Oral Cavity Anatomy 202
Application/Skills 165		Oral Cavity Cancer 202
Definition 166		Surgical Anatomy of Tongue 205
Parts of Ulcer 166		Cancer Tongue 206
Classification 166		Cancer of Lip 206
Factors Affecting Ulcer Healing 167		Complications of Different Treatment Options in Oral Cancer 207
History and Examination of Ulcer 167		23. Nose, Larynx, Nasopharynx and Airways
Investigations 168		208
Treatment 168		Application/Skills 209
Trophic Ulcer/Chronic Ulcer 168		Airway 210
Pressure Sore/Bedsore/Decubitus Ulcer 168		Endotracheal Intubation 211
Cushing's/Curling's/Meleney's/Marjolin's/Rodent Ulcer 169		Tracheostomy 212
Sinus 169		Epistaxis 213
Fistula 170		Nasal Carcinoma, Cancer Nasopharynx, Cancer, Oropharynx, Acute Laryngitis, Chronic Laryngitis, Laryngocele, Stridor, Dysphagia 214
20. Swelling of Head and Neck	171	Indirect Laryngoscopy 215
Application/Skills 172		24. Salivary Glands
Classification of Swellings 173		216
Origin of Swellings 173		Application/Skills 217
Examination of Swelling 173		Problems Seen in Salivary Glands 218
Investigations 174		Submandibular Gland Swellings 218
Triangles of Neck 175		Preauricular Swelling Causes 218
Swellings in the Neck (Midline/Lateral) or (Solid/Cystic) 176		Sialadenitis (Inflammation of Salivary Glands) 220
Branchial Cyst 176		Submandibular Stone/Parotid Stone (Sialolithiasis) 220
Branchial Fistula 177		Complications of Submandibular Gland Surgery 221
Sternocleidomastoid (SCM) Tumor 177		Sialogram (Sialography) 221
Torticollis (Wry Neck) 177		Infections (Cellulitis/Abscess) 222
Cyst 177		Infiltrative Diseases of Salivary Glands 222
Sebaceous Cyst (Epidermoid Cyst) 178		Tumors of Salivary Glands 223
Dermoid Cyst 178		Pleomorphic Adenoma (Mixed Parotid Tumor) 223
Neurofibroma 179		Warthin's Tumour (Adenolymphoma) (Papillary Cystadenoma Lymphomatosum) 224
Dental Fistula/Median Mental Sinus 180		Parotidectomy 224
Ganglion 180		Complications of Parotidectomy 224
Bursa 180		Parotid Fistula 225
Vascular Anomaly 180		Frey's Syndrome (Gustatory Sweating) 225
Nevus/Mole 183		Pleomorphic Adenoma Vs. Warthin's Tumour 225
Pharyngeal Pouch 183		Clinical Findings of Parotid Gland Tumors 225
Carotid Body Tumor (Potato Tumor, Chemodectoma, Non-chromaffin Paraganglioma, Dumbbell Tumor) 184		Summary of Investigations in Salivary Gland Tumors 225
Lipoma (Universal Tumor) 184		Treatment Choices in Salivary Gland Tumors 226
Hibernoma 185		Ranula, Ectopic Salivary Gland and Stafne's Bone Cyst 226
Dercum Disease (Multiple Lipomatosis) 185		25. Thyroid and Parathyroid
21. Swelling of Jaw	186	227
Application/Skills 187		Application/Skills 228
Tumors of Jaw 188		Introduction of Thyroid Gland 229
Cysts of Jaw 189		Thyroid Function Tests (TFT) 230
Benign Swelling of Jaw 191		Investigations for Thyroid Disease (Choices include) 231
Malignant Swelling of Jaw 194		Ectopic Thyroid 232
22. Oral Cavity	195	Lingual Thyroid 232
Application/Skills 196		Struma Ovary 232
Mucous Retention Cyst (Mucocele) 197		Thyroglossal Duct Cyst 233
		Classification of Goitre 233
		Iodine Deficiency Goitre (Sporadic or Endemic) 233
		Approach to a Thyroid Swelling (Unilateral/Bilateral) 234

Solitary Nodule	234	
Multinodular Goitre (MNG)	235	
Definitions of Thyroidectomy	236	
Thyroidectomy	236	
Thyroid Carcinoma	237	
Differentiated Thyroid Cancer: Hemithyroidectomy Vs. Total Thyroidectomy	238	
Comparison of Differentiated Thyroid Carcinomas	239	
Lateral Aberrant Thyroid	239	
Calcitonin	239	
Amine Precursor Uptake and Decarboxylation (APUD) System	239	
Multiple Endocrine Neoplasia (MEN) Syndromes	239	
Thyrotoxicosis and Hyperthyroidism	240	
Primary Thyrotoxicosis	241	
Preparation of a Patient with Thyrotoxicosis for Surgery	242	
Sleeping Pulse Rate	242	
Pregnancy and Toxic Thyroid	243	
Thyroid Eye Disease (Exophthalmos)	243	
Thyroid Storm (Thyrotoxic Crisis) (Hyperthyroid Crisis) (Acute Thyrotoxicosis)	243	
Thyroiditis	244	
Hypothyroidism	245	
Parathyroids	245	
Hyperparathyroidism	245	
Hypoparathyroidism (Tetany) (Hypocalcemia)	247	
26. Face Development, Cleft Lip and Cleft Palate	249	
Application/Skills	250	
Development of Face	251	
Congenital Anomalies of Lip and Palate	251	
Problems Associated with Cleft Lip and Cleft Palate	252	
Cleft Lip	252	
Cleft Palate	252	
Complications of Cleft Lip/Cleft Palate Surgery	253	
27. Lymphatic System	254	
Application/Skills	255	
Arrangement of Lymph Nodes of Head and Neck	256	
Drainage Area of Cervical Nodes	258	
Lymphadenopathy (Etiology of Lymph Node Enlargement)	258	
Cold Abscess	258	
Treatment of Tuberculosis	259	
Head and Neck Manifestations of Tuberculosis	260	
Lymphedema	260	
Lymphoma	261	
Burkitt's Tumor	263	
Rule of 7, Rule of 80	263	
Occult Primary	264	
Types of Neck Dissection	265	
28. Venous System	267	
Application/Skills	268	
Venous Anatomy of the Lower Limb	269	
Varicose Veins	269	
Deep Vein Thrombosis (DVT)	273	
Association Between DVT and Pulmonary Embolism	275	
Pulmonary Embolism	275	
Venous Ulcer	276	
Causes of Leg Ulcer	277	
Investigations in Leg Ulcers	277	
29. Arterial System	278	
Application/Skills	279	
Acute Lower Limb Ischemia (ALLI)	281	
Embolism	281	
Chronic Lower Limb Ischemia (CLLI)	281	
Atherosclerosis	281	
Buerger's Disease (Thromboangiitis Obliterans) (TAO)	284	
Chronic Upper Limb Ischemia	286	
Raynaud's Disease and Raynaud's Phenomenon	286	
Cervical Rib	287	
Aneurysms	288	
30. Nervous System	291	
Application/Skills	292	
Anatomy of Peripheral Nerve	293	
Classification of Nerve Injuries	294	
Clinical Assessment of Nerve Injuries	295	
Prognosis in Nerve Repair	295	
Wallerian Degeneration	295	
Tinel's Sign	295	
Anatomy of Trigeminal Nerve (Cranial Nerve V)	295	
Trigeminal Neuralgia (TN)/(TIC Douloureux)	296	
Horner's Syndrome	296	
Surgical Anatomy of Facial Nerve	297	
Bell's Palsy (Idiopathic Facial Palsy)	297	
Facial Nerve Paralysis	298	
31. Instruments	300	
32. Model Question Paper and Answers	306	
Long Essays	306	
Short Essays	309	
Short Notes	311	
33. Practical Examination Cases and Viva Voce	316	
Practical Cases	316	
Operations/Procedures	316	
Complications of Disease/Procedure/Surgery	316	
Define/Definitions	317	
Etiology or Cause(s) of Diseases/Conditions	317	
Classification	318	
Investigation(s) of Choice (IOC) for Following Diseases/Conditions	318	
34. Prescription Writing	320	
New Prescription: Why Do Patients Revist/Change Doctors or Need New Prescription?	320	
35. Student Soft Skills	321	
1. Doctor's ABC	321	
2. Communication Skills	322	
3. Compassion	324	
4. How Good Doctors Retain Their Patients	325	
5. Telephone Etiquette	326	
6. Leadership Skills and Qualities of a Leader	327	
7. Regular Time for Yourself	328	
8. Sleep	329	
9. Exams	330	
Index	331
