## 1. Introduction to Community Health..... 1

- Concepts of health and disease 2
- Meaning of disease/illness 2
- History and development of community health in India and its present concept 3
- History and development of community health nursing 3
- Dimensions of health 5
- Health determinants 6
- Indicators of health 7
- Health-illness continuum 9
- Models of health and illness 9
- Stages of illness behavior 10
- Impact of illness on family 11
- Levels of health care 11
- Levels of illness prevention 12
- Primary health care: elements and principles  
nurses role in primary health care 12
- Health for all 14
- Millennium development goals 15
- Promotion and maintenance of health 16

## 2. Community Health Nursing .....19

- Concept of community health nursing 20
- Philosophy of community health nursing 20
- Objectives of community health nursing 20
- Goals of community health nursing 21
- Principles of community health nursing 21
- Skills of community health nurse 22
- Community health team 22
- Qualities and functions of a community health nurse 23
- Scope of community health nursing 24
- Community health nursing process 25
- Community assessment/problem identification 26
- Community health diagnosis 28
- Components of nursing process 28
- Establishing interpersonal relationship 30
- Community healthcare plan 31
- Comprehensive community health nursing 32

## 3. Health Assessment .....34

- Concept of health assessment 34
- Purposes and factors affecting health assessment 35
- Principles of health assessment 35
- Responsibilities of nurse in health assessment 36
- Characteristics of a healthy individual 36
- Approach to physical assessment 38
- Health assessment of infant 38
- Health assessment of toddler and preschool child 41

- Health assessment of school going child 42
- Health assessment of adolescent 42
- Comprehensive health assessment 44
- Health assessment of antenatal woman 45
- Health assessment of postnatal woman 48
- Health assessment of elderly 50
- Role of nurse in health assessment 51
- Recording of health assessment 51

## 4. Principles of Epidemiology and Epidemiological Methods .....53

- History of epidemiology and population health 53
- Concept of epidemiology 54
- Aims of epidemiology 55
- Functions/uses of epidemiology 55
- Objectives of epidemiology 55
- Components of epidemiology 55
- Types of epidemiology 56
- Basic tools of measurement in epidemiology 56
- Principles of epidemiology 57
- Scope of epidemiology 57
- Dichotomies in epidemiological studies 58
- Epidemiology in community nursing 58
- Uses of epidemiology 58
- Advantages of epidemiology 59
- Epidemiological approaches 59
- Preventive epidemiology 61
- Importance of epidemiology 61
- Disease cycle 61
- Modes of disease transmission 62
- Spectrum of disease 62
- Disease causation 62
- Epidemiological triad 62
- Natural history of diseases 63
- Levels of disease prevention 65
- Control of infectious diseases 66
- Disinfection 67
- Role of community health nurse in epidemics 67

## 5. Family Health Nursing Care .....69

- Family 70
- Family as a unit of community health services 71
- Family health care 71
- Family health nursing 72
- Family-centered nursing approach 72
- Family health nursing process 73
- Family health assessment 74
- Methods of data collection 74
- Assessment of health problems 75
- Assessment of families 75
- Planning for nursing action 75
- Implementing the program 76

• Evaluation of program action	76
• Nursing care plan	76
• Nursing care	76
• Core competencies family health nurse	76
• Family health services—maternal, child care and family welfare services	77
• Responsibilities of community health nurse in MCH services	78
• Roles and function of a community health nurse in family health service	79
• Family health records	79
<b>6. Family Healthcare Settings .....</b>	<b>82</b>
• Concept of healthcare setting	83
• Healthcare settings	83
• Scope of practice for registered nurses	84
• Types of home healthcare services	84
• Home visit	85
• Bag techniques	86
• Home health nursing procedures	87
• Handwashing	87
• Cleaning, disinfecting and sterilization	87
• Thermometer techniques	88
• Measurement of weight and height	88
• Records and reports pertaining to family health care	89
• Nursing clinic	89
<b>7. Referral System.....</b>	<b>93</b>
• Referral in health systems	94
• Purposes of health systems	94
• Levels of health care and healthcare settings	94
• Concept of referral system	96
• Components of a referral system	96
• Principles of a referral system	96
• Rationale, benefits and objectives	96
• Need of referral system	97
• Importance of referral	97
• Advantages of referral cases	97
• Levels of health care: referral system	97
• Immediate referral	98
• Referral form	98
• Benefits of referral system	99
• Barrier to referral process	99
• Nurse's role in referral system	99
<b>8. Records and Reports in Community Health Nursing.....</b>	<b>101</b>
• Concept of record and report	101
• Definitions of records and reports	102
• Meaning of records and reports	102
• Characteristics of good recording and reporting	102
• Importance of reports and records	102
• Purposes of recording and reporting	103
• Values and uses of records	103
• Principles of recording and reporting	104
• Care of the records	104
• Types of records, reports and registers in community health nursing	104
• Legal implications of records and reports	105
• Role of community health nurse in recording and reporting	105
• Nurses responsibility for record keeping and reporting	106
• Community health nursing registers	106
<b>9. Minor Ailments .....</b>	<b>109</b>
• Basic principles of care during minor ailments and accidents ailments	109
• Management of minor ailments	110
• Minor ailments in respiratory tract	110
• Minor ailments in eyes and ears	110
• Minor ailments in cardiovascular system	111
• Minor ailments in digestive system	111
• Minor ailments in urinary system	111
• Minor ailments in neuromuscular system	112
• Minor ailments in reproductive system	112
• Standing orders	112
• Care of patient with fever	113
• Care of patient with sore throat	114
• Care of patient with sore eye	114
• Care of patient with convulsions	115
• Care of patient with diarrhea	115
• Care of patients with constipation	117
• Care of patients with animal bite—dog bite	117
• Care of patient with snake bite	118
• Care of patient with fracture	118
• Care of patient with anemia	119
• Care of patient with epistaxis (nose bleeding)	120
• Care of patient with heat stroke	120
• Care of patient with edema	121
• Care of patient with scabies	121
• Care of patient with wounds	122
• Care of patient with toothache	122
• Care of patient with shock	122
• Care of patient with unconscious	124
<b>10. Health System in India .....</b>	<b>127</b>
• Health system	128
• Aims and goals of health system	128
• Determinants of health system	128
• Forces influence the health system	129
• Health administration	129
• Model of healthcare delivery system	130
• Organization and administration of health system in India	131
• Central level healthcare administration	131
• Directorate general of health services	132
• Central council of health	133
• State level healthcare administration	133
• District level healthcare administration	134
• Community level healthcare administration	135
• Health organization at district level	136
• Health organization at block level	137
• Health organization at subcenter	137

- Health organization at urban 137
- Panchayat Raj 137

## 11. Healthcare Delivery System..... 141

- Types of healthcare delivery 141
- Infrastructure and health sectors 144
- Delivery of health services at subcenter (SC) 146
- Delivery of health services at PHC 147
- Delivery of health services at CHC 148
- Administration of nursing personnel 148
- Community development program 150
- Integrated rural development 151
- Sustainable development goals (SDGs) 151
- Reduce inequality within and among countries 155
- Make cities and human settlement inclusive safe, resilient and sustainable 155
- Ensure sustainable consumption and production patterns 156
- Take urgent action to combat climate change and its impacts 156
- Conserve and sustainably use the oceans, seas and marine resources for sustainable development 156
- Protect, restore and promote sustainable use of terrestrial ecosystem, sustainably manage forest, combat desertification and halt and reverse land degradation and halt biodiversity loss 157
- Promote peaceful and inclusive societies for sustainable development; provide access to justice for all and build effective, accountable and inclusive institutions at all levels 157
- Strengthen the means of implementation and revitalize the global partnership for sustainable development 158

## 12. Health Planning in India ..... 160

- Health planning 160
- Specific quantitative goals and objectives 161
- Health systems performance 161
- Health systems strengthening 161
- Health planning steps 162
- Planning cycle 163
- Health planning in India 164
- Planning commission 164
- National health committees 165
- Bhore committee (1946) 165
- Mudaliar committee (1962) 165
- Chadah committee (1963) 166
- Mukherjee committee (1965) 166
- Mukerji committee (1966) 166
- Jungalwala committee 166
- Kartar Singh committee (1973) 167
- Shrivastav committee (1975) 167
- Rural health scheme (1977) 167
- Bajaj committee (1986–87) 168
- National health policies 168
- Planning commission of India 168

- National development council and health (NDC) 169
- Five year plan and health 169
- First five year plan (1951–56) 170
- Second five year plan (1956–61) 170
- Third five year plan 171
- Fourth five year plan 171
- Fifth five year plan 171
- Sixth five year plan 172
- Seventh five year plan 172
- Eighth five year plan 172
- Ninth five year plan (1977–2002) 172
- Tenth five year plan (2002–2007) 173
- Eleventh five year plan (2007–2012) 173
- Community development and health nursing 174

## 13. Specialized Community Health Services and Nurse's Role ..... 178

- Reproductive and child health (RCH) 179
- National health mission (Rural/Urban) 201
- Janani Suraksha Yojana 205
- Emergency ambulance services 207
- Government health insurance schemes 208
- School health services 211
- Maintenance of school health records 223
- Occupational health nursing (including healthcare providers) 224
- Geriatric nursing 236
- Care of differently abled physical and mental 245

## 14. National Health Problems ..... 264

- Communicable diseases 264
- Non-communicable diseases 264
- Environmental sanitation problems 266
- Medical care problems 266
- Population problem 266
- Sanitation 268
- Man–environment relationship 268
- Importance of environmental science 269
- Components of environmental science 270
- Renewable and nonrenewable resources 271
- Problems associated with natural resources 271
- Natural resources and associated problems 271
- Forest resources 273
- Water resources 274
- Water pollution 274
- Mineral resources 275
- Food resources 278
- Energy resources 279
- Land resources 279
- Role of individuals in conservation of natural resources 280
- Equitable use of resources for sustainable lifestyles 281
- Ecosystem 281
- Forest ecosystem 282

- Ecosystem—scope and importance 282
- Importance of ecosystem 283
- Ecological pyramid 283
- Energy flow in ecosystem 284
- Biodiversity 285
- Significance of biodiversity 286
- Productive use value of biodiversity 287
- Threats to biodiversity 287
- Conservation of biodiversity 288
- National Biodiversity Act 288
- Environmental pollution 288
- Air pollution 289
- Water pollution 290
- Noise pollution 290
- Soil or land pollution 291
- Marine pollution 292
- Thermal pollution 293
- Nuclear hazards and their impact on health 293
- Global environmental problems 294
- Global warming 295
- Hazardous waste management 297
- Wastewater management 297
- Population explosion and its pressure on environment 297
- Ozone depletion 298
- Policy and legislation 299
- Towards sustainable future 300
- 17 New undevelopment goals for 2030 301
- Environmental education 301
- Concept of environmental health and sanitation 302
- Concept of safe water 304
- Water-borne diseases 305
- Water purification processes 305
- Household purification of water 307
- Physical and chemical standards of drinking water 307
- Bacteriological quality of water 308
- Concepts of water conservation 309
- Rainwater harvesting 310
- Watershed management 310
- Concept of pollution prevention: air and noise pollution, role of nurse in prevention of pollution 312
- Lighting 314
- Ventilation 315
- Radiation 316
- Meteorological environment 317
- Housing 318
- Town planning 319
- Disposal of solid waste 319
- Commonly used insecticides and pesticides 322

## 15. National Health Programs..... 325

- National ARI Control Programme 325
- Revised National Tuberculosis Control Programme (RNTCP) 326
- National Antimalaria Programme 327

- National Filaria Control Programme 328
- National Guinea Worm Eradication Programme 329
- National Leprosy Eradication Programme 330
- STD Control Program 333
- National Programme for Control of Blindness 334
- Iodine deficiency control program 335
- Expanded programme of immunization 336
- National Family Welfare Programme 336
- Role of community health nurse in family welfare services 337
- National water supply and sanitation programme 338
- Minimum needs program 339
- National Diabetes Control Programme 339
- Polio eradication: Pulse Programme 339
- National Cancer Control Programme 340
- Yaws eradication program 341
- National Nutritional Anemia Prophylaxis Programme 342
- 20 Point Program 343
- ICDS Program 344
- Mid-day Meal Program 344
- National Mental Health Programme 345
- Adolescent Health Program 346
- Role of nurse in the National Health Programme 346

## 16. Demography and Family Welfare..... 349

- Concept of demography 349
- Importance of demography 350
- Demographic cycle 351
- World population trends 352
- Concept of fertility and infertility 353
- Small family norm 354
- Family planning 356
- Family planning programme 359
- Birth control pills 360
- Barrier methods 361
- Long-term contraceptive methods 361
- Natural family planning (NFP) 361
- Natural methods of space methods 362
- Calendar or rhythm method 363
- Basal body temperature (BBT) method 363
- Cervical mucus method (CMM) 363
- Lactational amenorrhea method 364
- Coitus interruptus (withdrawal or pulling out) method 365
- Condom 365
- Biological, chemical and mechanical methods 365
- Terminal methods (tubectomy, vasectomy) 367
- Counseling in reproductive, sexual health including problems of adolescents 369
- Medical termination of pregnancy and MTP Act 370
- National family welfare programme 372
- Role of a nurse in family welfare program 375

**17. Health Team ..... 378**

- Building up of a team 378
- Characteristics of an effective team 379
- Advantages and disadvantages of team functioning 379
- Aims of health team 379
- Role of nurse in team functioning 380
- Roles and responsibilities of community health nursing personnel in family health services 380
- District public health nurse 380
- Community health nurse 381
- Health assistant supervisor (female) 382
- Health worker (female and male health worker) 382
- Community health volunteers 383
- Traditional birth attendants (TBAs) 383
- Principles and techniques of counseling 383

**18. Health Information System/Health Management Information System..... 386**

- Concept of HMIS 386
- Types of healthcare information systems 388
- Health information system (HIS) 388
- Nursing management information system (NIMS) 390
- Vital statistics 390
- Vital statistics measurements 392
- Sources of vital statistics 392
- Civil registration system 393
- Ad-hoc survey 394
- Vital registration 395
- Common sampling techniques 396
- Frequency distribution 398
- Collection of data 400
- Data collection process 400
- Data collection methods and instruments 401
- Selection criteria for data collection method 401
- Questionnaires 402
- Interviews 402
- Observation methods 403
- Other observational methods 404
- Psychological tests 404
- Likert scales 404

- Data presentation 405
- Diagrammatic/graphical presentation of data 405
- Qualitative data presentation 408
- Analysis of data 411
- Interpretation of data 412
- Communication of nursing research findings 415

**19. Health Agencies ..... 417**

- Types of international health agencies 417
- World Health Organization 418
- United Nations Fund for Population Activities 420
- United Nations Development Programme 421
- World Bank 421
- Food and Agriculture Organization 422
- United Nations International Children's Emergency Fund 424
- European Commission 425
- International Red Cross 428
- United States Agency for International Development 431
- United Nations Educational Scientific and Cultural Organization 432
- International Labor Organization 435
- Cooperative for American Relief Everywhere 436
- Canadian International Development Agency 437
- JHPIEGO 437
- Rockefeller foundation 438
- Ford foundation 438
- Colombo plan 439
- Voluntary association 439
- Indian Red Cross Society 441
- Indian Council of Child Welfare 443
- Family Planning Association of India 443
- Tuberculosis Association of India 444
- Central Social Welfare Board 445
- All India Women's Conference 446
- All India Blind Relief Societies 446
- Activities 446
- Hind Kusht Nivaran Sangh 447
- Child Relief and You 447
- Bharat Sevak Samaj 448
- Kasturba Memorial Funds 448

*Index..... 451*
